The OpenMI Association is the organisation responsible for the development, maintenance, and uptake of the Open Modelling Interface and Environment (OpenMI). The Open Modelling Interface is a standard, which enables simulation models of environmental and socio-economic processes to be linked. It thus enables water managers to more fully understand and predict the likely impacts of their policies and programmes.

Download and complete the OpenMI Association Membership Application Form: Learn about, influence and participate in the development and maintenance of the OpenMI

Current development and maintenance of the OpenMI is being undertaken through the OpenMI-LIFE project in the Life Environment programme. To visit the OpenMI-Life website click here.
